<p>Unfounded Considering all of the evidence and the quality of that evidence, the claim has been proven beyond a shadow of a doubt to be untrue.</p>	<p>"Reasonable Doubt" Circumstantial or minor evidence does seem to support the claim, but not enough to make a decision. "Reasonable doubt" exists.</p>	<p>"Hung Jury" The evidence provided does support the claim, but there are still uncertainties as to whether that support really proves the claim is true. This rating is the result of a "hung jury."</p>	<p>Likely True There is room for interpretation or other possibility, but considering all of the evidence and the quality of that evidence, the claim is strongly supported and is most likely true and/or valid.</p>	<p>True and Valid Considering all of the evidence and the quality of that evidence, it is quite obvious that the claim is true and valid.</p>
