

Use the SimpleMind app

1. Click on the Apps page icon to go to the apps screen. Swipe your finger to go to the correct screen if necessary.

2. When you see the apps screen, find the **SimpleMind** app and touch on the icon.
3. When you start the app it will either ask you to type the Theme word or it will offer you an empty mind map.
4. Double touch (touch twice in quick succession) to edit the central theme.

5. Type the word(s) for the central theme of the mind map and touch **OK**.

6. You will see the central theme word displayed on SimpleMind screen with a **T** and a **+** alongside it.

7. You can add a topic by touching on the **+** or you can touch the in the top menu.

8. Type in the topic which you wish to add and touch on **OK**.

9. The topics will appear on the mind map as you add them.

10. Touch on a word to make it active (the **T** and **+** will appear). Once a word is active you can add a topic to that word or delete that word using the delete icon at the top of the screen.
